Subject: East Chicago Drinking Water Data
Attachments: East Chicago Graphs ALL SITES.PDF

Hello Mr. Crowley:

Bob Kaplan has asked me to provide you with the attached drinking water sampling data generated thus far from homes in the East Chicago USS lead site.

I am attaching a set of graphs showing the data available thus far for individual residences. (To clarify, blue reflects data from pre-excavation samples, and red indicates data from post-excavation samples.) A graph showing only blue data means that the post-excavation results have not been generated yet.

I also attach below a chart that summarizes the data generated thus far:

USS Lead Sequential Sampling Result Summary 11/30/2016 Draft	Zone 2		Zone 3		Total	
	Pre	Post	Pre	Post	Pre	Post
# of Properties in Sequential Sampling Program	8	8	37	37	45	45
# of Properties with Preliminary Results	8	5	18	16	26	21
# of Properties with at least one Pb result above action level (15 ppb)	2	1	12	8	14	9
# of Properties with Final - Validated Results	7	1	0	0	7	1

It is my understanding that this data is subject to a data-sharing agreement.

Sincerely,

Chris Korleski
